

Bradley Moore
2014 NEWEA President

Welcome to the premier water event in New England— the NEWEA 2015 Annual Conference and Exhibit. This event draws some 2200 professional attendees, and this year we offer 33 technical sessions, numerous poster sessions (including an adjudicated competition among some of our promising young student members), over 200 exhibitors of cutting edge equipment and services, and more. This year’s theme is **SYSTEMS>GO**, and our dynamic conference promises to provide ample opportunity to learn, network and catch up with old friends. Take a close look at this year’s program; the Program Committee has worked diligently to provide a wide range of topics for the technical sessions. Also, take a moment to review the other events such as exhibit hall receptions, special features, and committee meetings. I encourage you to attend a committee meeting in your area of interest, as it is a great way to meet other industry leaders in New England with the same interests. It is just another way to get the most out of this annual event.

We have several special guest speakers who will provide a national perspective and an opportunity to compare and contrast the challenges we face here in New England with those in other areas. On Monday, we are honored to have Senator William “Mo” Cowan, Senior Vice President and Chief Operating Officer of ML Strategies as our featured speaker. WEF Vice President Rick Warner will also offer his insight on current WEF initiatives as part of the Opening Session. Their attendance also gives us the opportunity to showcase our leadership in New England. In addition, this year we will once again have our Operator Ingenuity session, and, of course, our annual awards ceremony recognizing outstanding efforts in our industry

I want to thank the many NEWEA Committees that have put in the time and energy to make this an industry-leading event. Special thanks are due to the Program, Sponsorship, Registration, Exhibits and Awards Committees, and particularly to Meg Tabacsko, Sue Guswa and Ron Tiberi. Also, sincere thanks to Mary Barry, Linda Austin and Janice Moran, from the NEWEA office, for without their energy and expertise this event would be nearly impossible to pull off.

I sincerely hope that you take advantage of all this Annual Conference has to offer in the way of technological enrichment, but also that you seize the opportunity to see old friends and make new acquaintances, all ways that this event helps us to be better prepared to face the challenges we have in protecting public health and the environment.

Opening Session

MONDAY, JANUARY 26**11:00 AM • Salon E**

Moderator: Susan Guswa, NEWEA Program Committee, Tighe & Bond
 Welcome: Brad Moore, NEWEA President, City of Bangor, ME
 WEF Update: Rick Warner, PE., Vice President of WEF, Senior Engineer for the Washoe County Department of Water Resources, Reno, Nevada

FEATURED SPEAKER**U.S. Senator William “Mo” Cowan**

U.S. Senator William “Mo” Cowan, Senior Vice President and Chief Operating Officer of ML Strategies, the government relations and strategic consulting affiliate of international law firm Mintz, Levin, Cohn, Ferris, Glovsky and Popeo, P.C., where the Senator is Of Counsel, will be the keynote speaker at the New England Water Environment Association’s (NEWEA) Annual Conference. NEWEA, first established in 1928, has been holding annual meetings to provide a forum for knowledge and technology exchange within the water field. Since then, the NEWEA Annual Conference has become New England’s largest water quality conference.

*U.S. Senator William “Mo” Cowan*

Senator Cowan returned to Mintz Levin in November 2013 following his tenure as interim U.S. Senator for the Commonwealth of Massachusetts, a seat Governor Patrick appointed him to fill after it was vacated by Secretary of State John F. Kerry. He previously served as Governor Patrick’s Chief Legal Counsel and, later, Chief of Staff and Senior Advisor. Prior to that, Senator Cowan was a Member in the Boston office of Mintz Levin where he represented a diverse array of commercial clients in business and regulatory matters.

As of this month, the U.S. Congress has a very different look, which will have potentially significant impacts on Water, Wastewater, the Environment and Infrastructure industries throughout the country. Senator Cowan will address the effects of a changing Congress from both national and regional perspectives, as he considers impacts on regulation, legislation, and funding.

TUESDAY, JANUARY 27

Breakfast 7:30 AM

IT'S ALL ABOUT VALENTINE'S DAY

Coordinator: Joy Lord

9:00 AM–3:00 PM

Regis

In preparation for Valentine's Day, we will be crafting several sweet items for your home. It will also inspire you to make these for other holidays and special occasions.

Have you seen the wreaths made of Decor Mesh and wondered how to make them? Well, wonder no more. You'll make one of your own for your front door.

What would Valentine's Day be without candy? You will love constructing your own candy topiary or two, to display in your home. This is a great way to have your candy and not eat it all (calorie free) and if there is time, another surprise.

We will start with a continental breakfast 7:30–9:00 AM and have lunch in house mid day.

Come join in the fun for a sweet day.

Dress comfortably (red/pink) and bring your glue gun.

Exhibit Hall Reception (4th floor Exhibit Area) 4:00–6:00 PM

Don't forget, Monday lunch at the "Top of the Hub" at 12:00 noon, This is independent of the NEWEA registration. Remember—no jeans.
